

1. Name of the product

Eendoostaak Locktagon task

2. Product code

21847846

3. Colour

As illustrated

4. Short description

Tasks that are made within the framework of a plastic box. The tasks have a clear beginning and a closed end. The material is uniform, durable, safe and hygienic. The one-task-boxes are specifically designed for children / young adults with autism and are aimed at development and learning. Adults and older people with a lower mental level can perform the tasks to maintain skills or as a relaxing activity.

5. Contents

This task contains 30 locktags.

6. Safety

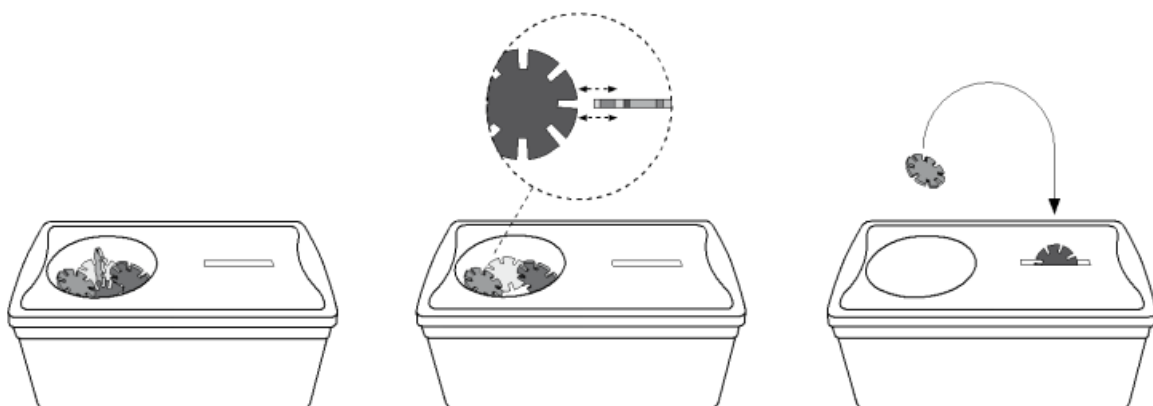

This product should be made under guided/adult supervision at all times. Because of the small parts, it is not suitable for children under 3 years of age.

7. Product materials

Plastic box (33x19x12.5 lwxh) provided with a plastic container, and wooden or plastic locktags.

8. Assembly

Place the locktags together in pairs and put them in the round container like this. The game materials are not suited for disassembly.

9. Usage

In the locktagon task, the objective is to have a partial action take place. First, one should take apart 2 locktagons and subsequently check them into the box. The locktagons can only be checked in when the task performer takes them apart.

Game end

The game ends when all the locktagons have been checked in.
