5. In use

- Carefully unpack the 2 packs and separate the 4 blocks as shown below

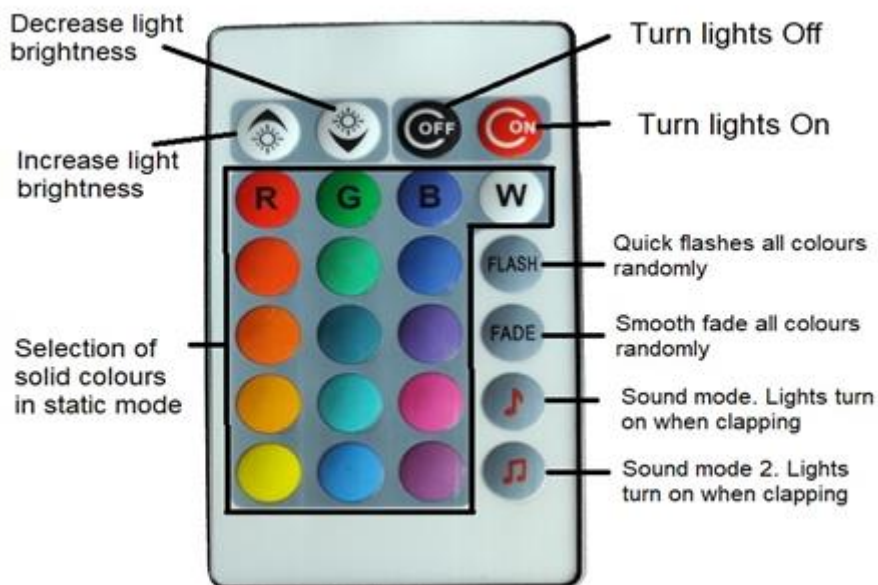

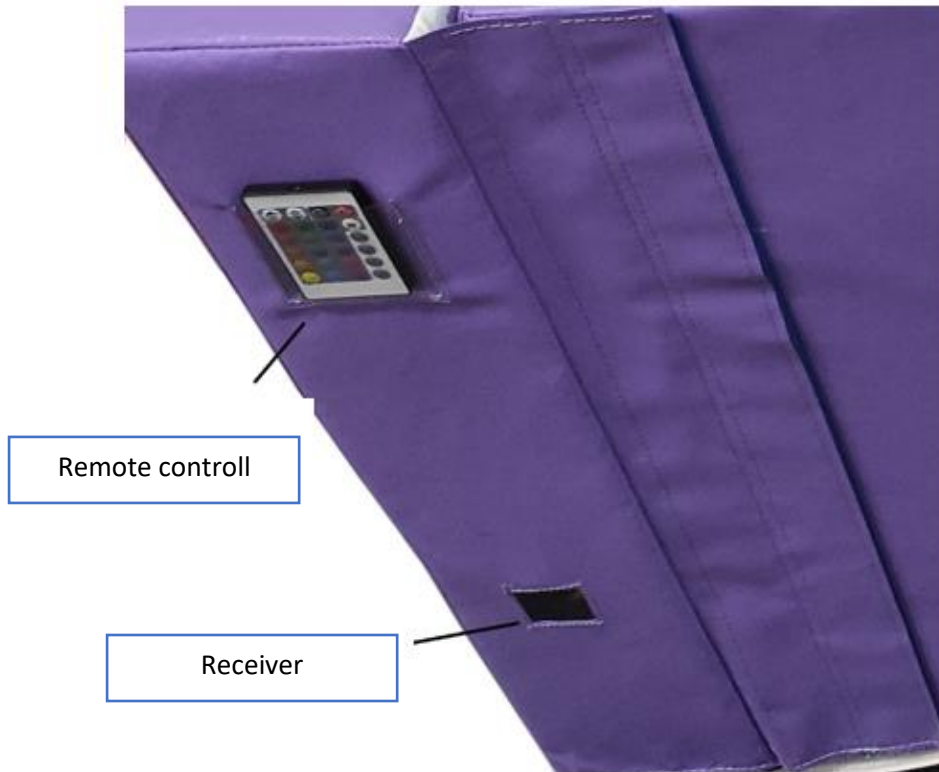

- Place blocks 1 & 2 (with light bars) in front of the other and place blocks 3 & 4 on both sides following the sketch.
- Join the 2 cables from the block 4 with the ones from block 1 and similarly connect the 2 cables of block 4 to those of block 2.
- Once connected keep the cables inside the blocks nº 1 and 2, and proceed to join the 4 blocks using the Velcro strips system and joining the blocks to the base as well.
- The last step is to connect the power cord from the block 2 to the control box and plug the box to the main socket (220v to 100 volts).
- Pulse the ball pool "on" and enjoy the product!

Remote control

In the vinyl compartment in block 2 (see picture) you will find the remote control. Remove the protective plastic from the battery. Aim at the receiver that is also in block 2. Then you can press "ON".
