

1. Product name

Water Drop Jellyfish Lamp

2. Product code

25370477

3. Short description

This Water Drop Jellyfish Lamp is a fascinating and enchanting element for any sensory room. The aquarium comes with two neon jellyfish that move gracefully through the water once it is filled. Turn the aquarium on, and not only do the jellyfish move lifelike, but the aquarium also emits a soft, colourful light. This creates a calm and soothing atmosphere, perfect for relaxing.

4. Content

1 x Jellyfish Lamp

2x jellyfish

1x USB-cable

5. Sensory stimulations

See

6. Product specifications

Size: 15 x 15 x 22 cm (approximately)

Material: PP+ABS plastic

6x non-replaceable multicolour LEDs - 3W

Input: DC 5V 1A

Built-in non-replaceable rechargeable battery 3.7V 1200mAh

7. Warning

- This is not a toy. For visual entertainment only. Children must be supervised at all times.
- Indoor use only. Do not expose to direct sunlight.

8. Safety

- Before setting up the tank, make sure the product is not damaged. If any part of the product is damaged, do not attempt to assemble and use it.
- Only use the cord supplied with this product and no other should be used.
- This product contains non-replaceable LEDs. If any of the LEDs cease to work, the entire unit must be disposed of according to your local authority guidelines.
- Remove all packaging material before installation. Do not use in the packaging.
- Keep away from heat sources or open flames. Ensure that the cable is positioned so that there is no danger of tripping, entanglement or strangulation.
- Ensure that the tank is placed on a stable, flat and level surface.
- **DO NOT** use live fish in this aquarium.
- **DO NOT** attempt to move the product when it is filled with water or when it is connected to the mains or changing water.

- **ALWAYS** unplug the product when cleaning product is not intended for use by persons (including children) with reduced physical, sensory and mental capabilities, or lack of experience and knowledge, unless supervised by a competent person who is responsible.

9. How to use

- The product is powered by connecting the USB cable to the USB port.
 - Use the ON/OFF switch on the base to turn the lamp on or off.
1. Remove the cover from the top of the tank.
 2. Fill the tube to the top with distilled water.
 3. Connect the USB cable to the USB port and switch it on using the on/off switch.
 4. Add 1-2 drops of detergent and wait one minute
 5. Turn on the power for at least 30 seconds before inserting the jellyfish into the tube.
 6. Gently hold jellyfish by the tentacles to insert into the tank. Carefully fill the jellyfish with water before releasing.
 7. Try to avoid air bubbles in the jellyfish. If necessary, use a straw or stick to help turn them to remove air bubbles.
 8. Put the lid back on.
 9. Give the jellyfish some time to swim around correctly, as it may take some time.
 10. Change the water occasionally if it is dirty.

Charging:

1. Connect the USB cable to charge the lamp. It takes about 3 hours to fully charge. Once charged, disconnect the USB cable and it takes about 10 hours to use this lamp wirelessly (depending on how often it is used and it is switched on).
2. During charging, the YELLOW light comes on. When the battery is fully charged, the GREEN light comes on.
3. Press the round button to switch on/off.
4. If the device is fully discharged, it should not remain discharged for a long time. If the device is not used for a long time, it is recommended to recharge within 3 months to ensure efficient battery life.
